MEMORANDUM FOR: Director/CRS

Attached is a list of OER production which, so far as I know, is not in your central files. Please have someone work out with [] a way of getting the material in. I have three concerns: (1) that non-Agency personnel be unaware of this listing; (2) that people not have access to this listing without either my permission or that of [] and (3) that I or [] know precisely before hand what items they wish to examine after they have seen the list.

[]
Paul V. Walsh
